

# LINKEDIN LEARNING: MY CAREER PLAN

The career plan feature helps map out your learning and recommends content related to your professional development goals. This guide walks through how to create a career plan.

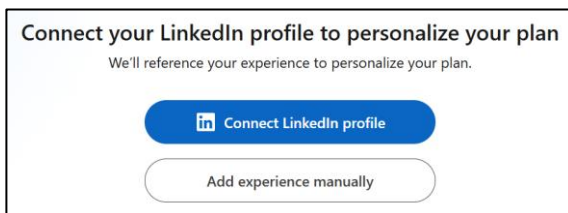

## Create your career plan

From the left navigation menu, click **My Career Plan**, then click [Get started](#) in the Goal section.

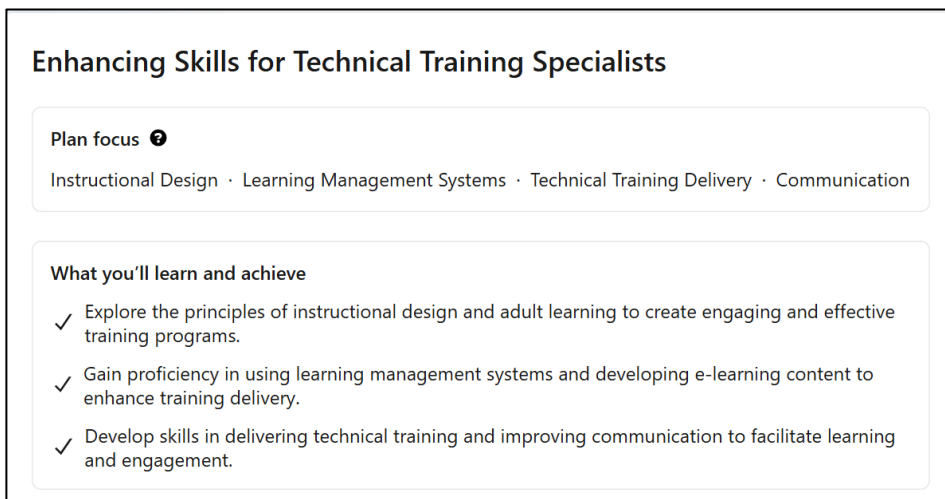

## Connect your LinkedIn profile

You will be prompted to connect your LinkedIn profile or manually add your experience.

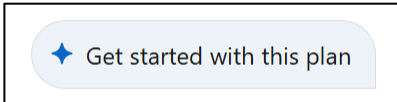

## Set a career goal

Answer the questions and the tool will generate a learning plan that matches your goal. The screen shot below previews a plan for a Technical Training Specialist.

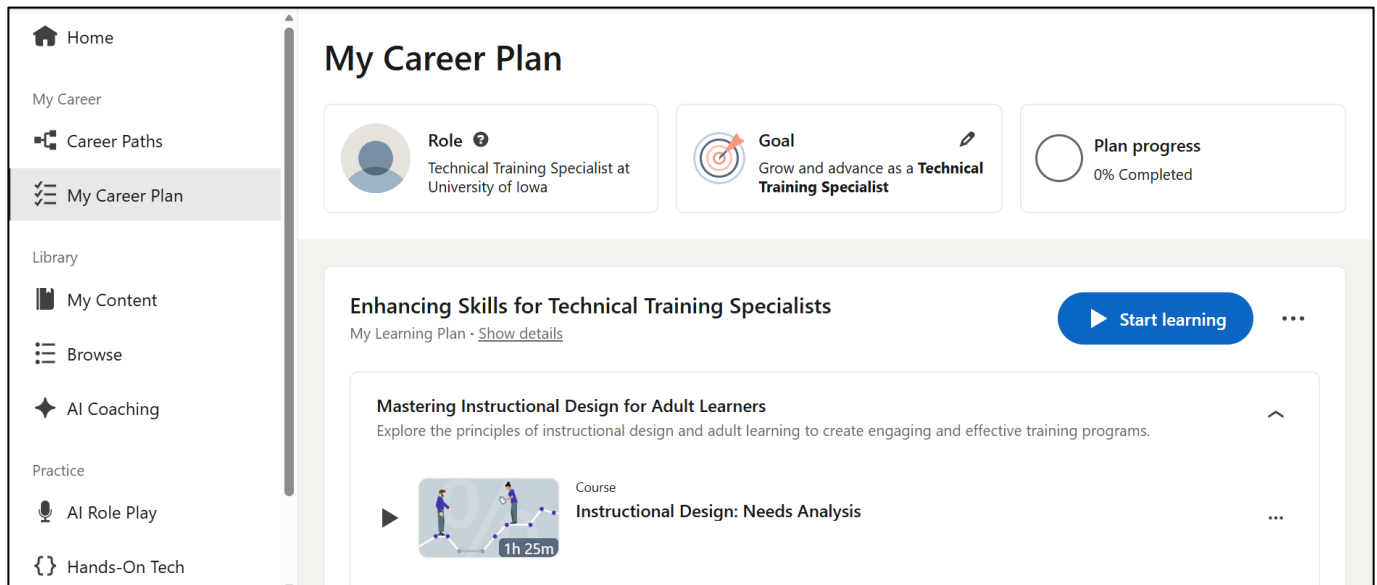

### Start learning

Click **Get started with this plan** to start learning today!

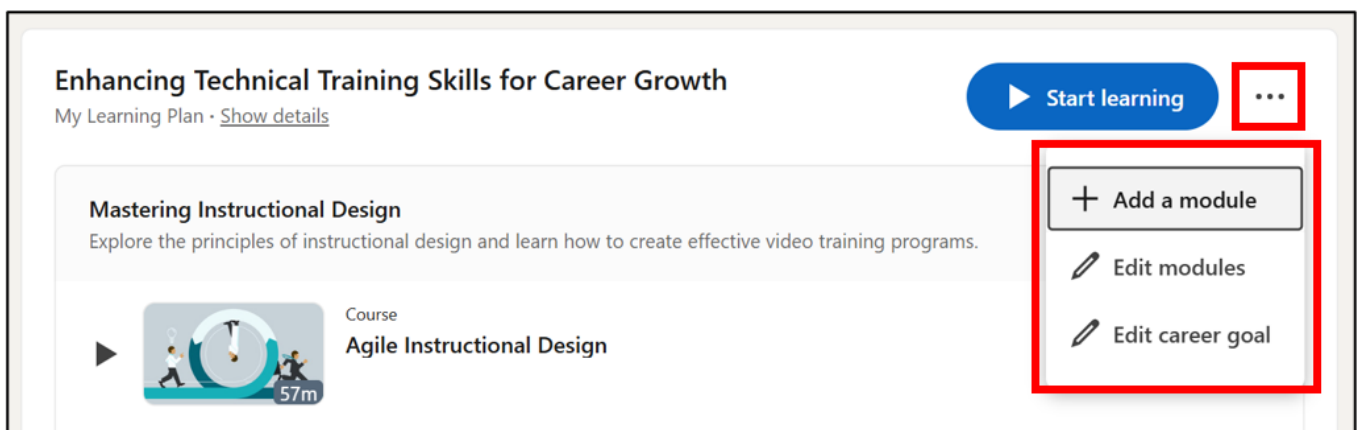

**Note:** The screenshot below is an example of a learning plan for a Technical Training Specialist.

### Adjust your plan

Once your plan is created, you can add modules, edit modules, or edit your career goal from the three-dot icon.
